## The International AI Doctoral Academy - Pioneering AI University Education & Research

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 951911

## AIDA aims to

- Achieve European academic excellence and industry relevance, attract young talent and provide incentives for it to stay in Europe.
- Nurture a new generation of AI talent by offering educational courses, student exchanges, AI Mellontology symposiums and summer schools.
- Create a mechanism for inter-university sharing of educational assets in the area of PhD-level AI.
- Establish a charter for European universities to share, accredit, and recognise PhD education credits in the area of AI.

## Who can benefit from AIDA and how

### Universities/Research Centres

- Gain visibility and recognition
- Expand the educational offers and opportunities for current and prospective students
- Attract new talents

### AI Lecturers/Professors

- Increase the reach and attendance of courses
- Capitalise on the aggregated expertise and educational resources
- Share knowledge and establish collaborations

### AI Ph.D. students and Postdocs

- Join quality AI courses delivered by distinguished AI lecturers worldwide
- Access to educational resources and expertise
- Get an AIDA Certificate of Course Attendance (CCA)

## What AIDA has to offer

### Short courses

**Short courses** / Tutorials are sessions addressing specific topics with a duration of around 5 to 16 hours.

### Seasonal Schools

**Seasonal Schools** like summer schools.

### Educational resources repository

**Educational resources repository** of workshops recordings, presentations, reports and other materials.

### Other community-driven events

**Other community-driven events** such as the AI Mellontology Symposium.

### Semester courses

**Semester courses** are typically part of the university curriculum and have a duration of approx. 40 hours and offer 5-7 credits.

### AI PhD curriculum

**AI PhD curriculum** showcases the AI subjects addressed in educational programs in Europe. AI PhD excellence benchmarking guidelines have also been developed.

### AI Excellence lecture series

**AI Excellence lecture series** where top highly-cited senior AI scientists or Junior AI scientists deliver high-quality scientific lectures
